

# MAJOR LEAGUE BASEBALL SIR DAYS

## ASAP SEND IN YOUR MONIES

SIR Members:

Please deal only with the Group Sales personnel at each MLB's team. It will be up to each group on their own to come up with 25+ members, friends and family. These arrangements may include joining together with another branch perhaps within your area. In any case, have only one representative from each group deal with each professional baseball team.

There is no timeline for the "dynamic pricing". Ticket prices will change at any time, and the group sales personnel has absolutely no control over pricing. "This is something that needs to be 100% clear to all groups. Pricing can always change and availability can change at any time."

Those with under 25 members going to the Giants game need to call the general ticket office (SF: 415-972-2209). You'll be paying the prevailing prices at the time you conduct business, plus you would be subject to pay additional service fees. I am only working with group sales. Neither the group sales personnel nor I are grouping people together in order to reach the 25+.

Already the SF Giants price has gone up to \$47, and sold out quickly. Please get your group, and have your representative collect the monies and confirm with the Group Sales personnel ASAP. The new SF game will be the Giants vs the Washington Nationals on July 31 (Sunday, 1pm). The A's game will also sell out even if it seems so far away. Get your monies in by February!
