

Events, Ticketing & Selling Online!

Collecting Payments Online

What was I trying to do?

01

Provide a convenient way for people to see upcoming events and be able to say ... “Hey, I want to go to that!”

02

Sell tickets to monthly luncheons and collect funds online in order to eliminate “The Line”.

- With COVID-19 this is even more important!

03

Sell tickets to Special Events and collect funds online

- Annual Picnic / Christmas Party / Sac. Kings games / Sac. River Cats games / etc.

04

Collect Annual Dues Payments

05

Sell SIR merchandize online

- Hats / Polo Shirts / Vests / etc.

I selected:

Description

Event Tickets provides a simple way for visitors to RSVP or purchase tickets to your events. As a standalone plugin, it enables you to add Event Tickets to posts or pages. When paired with [The Events Calendar](#), you can add that same functionality directly to your event listings.

Sell tickets to your events by connecting your PayPal business account to your site. PayPal handles the transactions so you can focus on event management! Admins can view attendee information from the backend, allowing them to check in registered attendees with ease when your event begins.

DOCUMENTATION

What are the fees for WooCommerce Payments?

FREE DOWNLOAD

WooCommerce Payments is available to stores based in the US. Based outside the US? [Request to be notified](#) when it becomes available in your country.

WooCommerce Payments uses a pay-as-you-go pricing model. You pay only for activity on the account.

The fees include:

- No setup fee
- No monthly fee
- 2.9% + 30¢ per transaction for U.S. issued credit or debit card
 - +1% for transactions paid using a card issued outside the US
- \$15 fee per dispute (refunded if you win the dispute)

Summary

- Adding payments to Wordpress is straight forward using established plugins!
- Things to consider:
 - SECURITY – You don't want to store CC info on your site! Leave it to a trusted third party.
 - Must use SSL to encrypt data being transferred from browser client to server!
 - Cost – Most transactions cost 2.9% plus \$0.30 per transaction. This cost can, and in some cases is, passed on to the purchaser!
 - Timing of Receipt of Payments – Just because somebody has made a purchase/payment on your site doesn't mean the money is in your bank account yet! There are delays, some very significant.
 - Effort required to administer online sales & collect payments (It's a real store!)
- All things considered I believe that it is worthwhile to pursue!
