WEBSITE SEARCH IMPROVEMENT

This is my Test site and is similar to my old Branch54 website with little verbiage about what prospective members may search for.

Performing web searches with old website returned no hits!

I rewrote my Home Page:

SIR Branch 54

Retired Men Making Friends and Enjoying Fun Activities

Home

Home

The Mission of SIR is to enrich the lives of our members through fun activities and events – while making friends for life. We provide a venue for Retired or Semiretired Men to join together to maintain old friendships, form new ones and share the interests of retirement. We engage in numerous hobbies and provide the opportunity to engage in entertaining and challenging activities after you retire.

Fishing - Branch 62 2020

https://branch62.sirinc2.org/Fishing/Fishing.php •

When	Where	Who	Miscellaneous Information
------	-------	-----	---------------------------

We intend to have one meeting each month following the Branch Luncheon on the 3rd Thursday of each month to discuss recent and future outings and tell fishing stories. Additionally, we will attempt to have one group fishing activity each month during fishing season. Fishing meetings are now in conjunction with the Thursday Zoom Chats. All fishermen are encouraged to join the chats to find out what is new with the Fishing Activity. We are now considering our next activities that may include crabbing in Capitol...

18 Hole Golf - Branch 62 2020

https://branch62.sirinc2.org/18HoleGolf/18HoleGolf.php •

The 18 hole golf group is full of fun guys who like to play local courses. We play on every Monday throughout the year, and competition is fierce for the \$2 contributions to the prize pool. Winning is not as important as the bragging rights at the 19th hole. We encourage guests with handicaps. We often play in less than 4 1/2 hours.

WATCH OUR INFORMATIVE VIDEO! >>> Click Here

Sons In Retirement (SIR) is a nonprofit public benefit corporation for retired men, devoted to the promotion of independence and the dignity of retirement. SIR's purpose is to assist men in renewing former friendships and to provide opportunities to make new friends through association with other retirees.

We Create Activities Our Members Enjoy

We have monthly luncheons with interesting speakers and good fellowship. Additionally, our members enjoy doing a variety of other activities including golf, bowling, card games and more. Many activities like travel, dining, picnics, and holiday parties include our ladies and guests. To get more information on our activities click on the icons to the right. For speaker information, click on the Calendar menu (under News & Events)button above.

Now that the COVID-19 restrictions are lifting a little, in June we will be starting to have in-person lunches as we have done before. Now teaming up with Branch 54, we will meet at the Three Flames in San Jose.

But There Are Some Things We Don't Do!

Branch Activities

Google Search: Retirement men's activities San Jose

I performed a speed check of Branch54 and got a 39 out of 100.

I removed all unused Themes and plugins and got up to 62.

UNITED STATES

The Mobile Speed Scorecard and Impact Calculator

March 2018

Speed is crucial to consumer engagement, which in turn is key to conversions. In short, speed equals revenue. That's why we've created the Mobile Speed Scorecard and the Impact Calculator. Marketers can compare their mobile speed to industry peers and see the potential revenue impact that speed (or lack thereof) has on the bottom line.

The Speed Scorecard

We've all been there: eagerly anticipating a mobile site to load and then abandoning it out of frustration. It's a challenge most businesses struggle with. In fact, the average mobile webpage takes 15.3 seconds to load.¹

Count that off to yourself—feels like an eternity, doesn't it? If people have a negative experience on mobile, they're 62% less likely to purchase from you in the future—no matter how beautiful or data-driven your marketing campaigns are.²

The Speed Scorecard allows brands to rank their mobile site against those of their peers, by country and connection type. It relies on real-world field data from the Chrome User Experience Report.

heck out the video below from Google I/O 2019 to learn more about how to use and contribute to Lighthouse.

As page load time goes from...

1s to 3s the probability of bounce increases 32%

1s to 5s the probability of bounce increases 90%

1s to 6s the probability of bounce increases 106%

1s to 10s the probability of bounce increases 123%

Source: Google/SOASTA Research, 2017.

Get started

Choose the Lighthouse workflow that suits you best:

- . In Chrome DevTools. Easily audit pages that require authentication, and read your reports in a user-friendly format.
- . From the command line. Automate your Lighthouse runs via shell scripts.
- · As a Node module. Integrate Lighthouse into your continuous integration systems.
- . From a web UI. Run Lighthouse and link to reports without installing a thing.

Check out the video below from Google I/O 2019 to learn more about how to use and contribute to Lighthouse.

Monitor the Google Search traffic to https://branch54.sirinc2.org/

To: Owner of https://branch54.sirinc2.org/,

Google systems confirm that on June 14, 2021 we started collecting Google Search impressions for your website in Search Console. This means that pages from your website are now appearing in Google search results for some queries. Here's how you can monitor your site's Search performance using Search Console.

Track your website's performance:

 Check your top pages on Google Search Check your top pages in the Performance Report to monitor how many impressions they get.

See top pages

See which queries trigger your site See which queries show your website's pages in Google search results.

See top queries

Monitor errors on your pages Pages with errors may not appear in search results or provide a bad experience to your users. Make sure to check the crawl errors report and fix any issues you find.

See errors
